Re: Docket #07-16 to provide fast, **free**, family-friendly wireless broadband internet access

Dear Secretary Dortch,

Using the internet is a large part of the **day** for many Americans. Many rely on **the** internet for communication through email and some simply ~~play~~ play. But for small businesses, and those who work from home, the internet **can** be the **main** source of information, news or sales. **When** a small business **is** not connected to the Internet, the business **is** limited in **its** effectiveness and efficiency.

As a small business owner, I know that a fast and reliable internet connection allows me to be as efficient and as organized as possible, whether keeping track of client **files** and payment information, or receiving news and updates. I believe the proposal **put** forth by M2Z Networks to make wireless broadband internet available at no cost will help small businesses everywhere. By saving on **the** cost of broadband, or even receiving access for the first time, a small business can better use the tools of the internet such as marketing and online sales opportunities.

I know that saving on broadband access will increase the **bottom** line for small businesses. I urge you to taking advantage of the M2Z Networks proposal and continue supporting and building America's small businesses.

Sincerely,

David Henry
